

# Heather Glen Playground Renovation - Dublin, Ohio

The playground at Heather Glen Park will receive an update in 2026. The proposed design includes all new play equipment and surfacing for children ages 2-12. The new play area will include a play structure with shade canopies, bridges, multi-use swings, slides and other activities.

Project Site

SmartPlay BeachComber

Kids ages 5 to 12 will traverse up climbers, over bridges and down slides on this multifaceted Smart Play structure.

Swings

A traditional belt swing, harness swing and toddler swing are included.

Motion

Designed especially for the youngest adventurers. Using the climbing net, they can reach their very own little hideaway before sliding safely back down. The playhouse encourages first climbing experiences, providing a space for imaginative role-play.
