NS RAPID

Chapel Hill Is Growing — NS RAPID Is How We Keep Up

Chapel Hill is a growing town. More residents choosing to live here. More employers, students, healthcare workers, and visitors moving through the corridor every day. By 2045, we expect that 43% of Chapel Hill's population and 55% of its jobs will be concentrated along the NS RAPID corridor. NS RAPID is how we build the infrastructure to support growth.

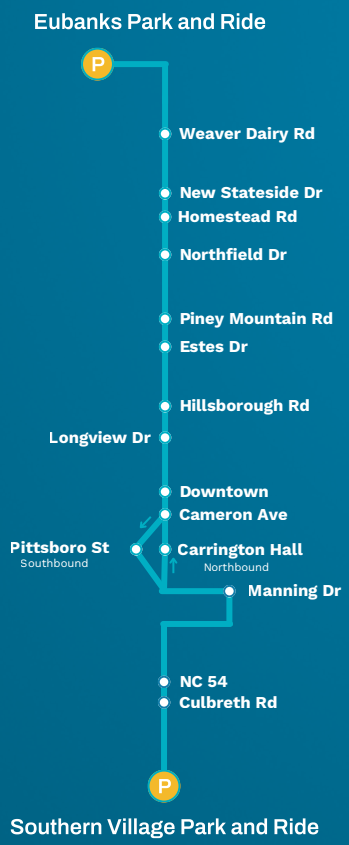

> ***NS RAPID is about connecting the people, places, and opportunities that make Chapel Hill work — more reliably than ever before.***
> — Brian Litchfield, Transportation Director, Town of Chapel Hill

Service Launches

WHY THIS MATTERS TO YOUR BUSINESS

Foot Traffic
Reliable transit brings more customers to your door. Modern stations create pedestrian activity — and access stays open through construction.

Employee Commutes
Your team gets to work without worrying about parking or traffic — less stress, more reliability.

Regional Access
NS RAPID connects your business to the entire Triangle, making Chapel Hill more competitive as a place to do business.

Property Values
Bus Rapid Transit corridors have a track record of increasing nearby property values as transit investment signals long-term commitment.

Parking Relief
NS RAPID gives employees another commute option, freeing up more spaces for customers who drive.

Corridor Investment
Nearly $200M in federal and local investment shows the corridor is a priority — bringing more customers.
